Caterpillar D6R LGP Bulldozer

- The D6R LGP is engineered to provide power and strength for demanding work.
- The machine's Finger Tip Control combines steering, direction and gear selection into a single system.
- Cat's powerful C9 engine features Advanced Modular Cooling System (AMOCS) which improves performance and reduces emissions.
- The elevated final drive offers extended power train life and increased durability.
- The LGP (Low Ground Pressure) configuration offers wider track shoes, longer track frame and wider gauge, increasing track contact area and maximising floatation.
This results in a ground pressure of only 34 kilopascal (5.0 psi)
- The D6R frame is engineered to absorb high impact shock loads and forces.

Technical Information - Caterpillar D6R LGP

Tractor

Height:	3245mm
Length (Inc blade):	5465mm
Ground clearance:	433mm
Track gauge:	2225mm
Width (over trunnions)	3428mm

Blade

Digging depth:	655mm
Blade width:	3990mm
Blade height:	1101mm
Maximum tilt	701mm
Blade capacity (SAE)	3.70m ³
